# Educational material provided by swisstopo

- swisstopo offers material and support from primary school level through to university
- Primary and secondary school
  - Treasure hunt
  - A journey through time
  - LUBIS Viewer
  - Swiss Guesser
  - The Colours of Switzerland
- Higher secondary education
- Tertiary (university)
  - swisstopoEDU - MSc: swisstopo programme for supporting Masters theses

# Treasure hunt

[www.schatz-karte.ch](http://www.schatz-karte.ch)

The game helps schoolchildren to learn through play how to use different types of geodata such as aerial photographs and topographic maps.

# A Journey through time

## Embark on a journey through time

### A journey through time

Embark on a voyage through time with swisstopo's topographic maps and travel through almost 175 years of Swiss cartographical history, even as far back as the time before the Swiss Confederation was founded.

# LUBIS Viewer / Aerial photographs

## LUBIS Viewer application

### Information system for aerial photographs / LUBIS-Viewer

With the LUBIS Viewer application, you can search, display and order all aerial photographs and aerial image strips which are registered in swisstopo's LUBIS aerial imagery information system. The database is continually updated with historical images and newly surveyed aerial image strips.
