Land consolidation in a modern setting

21 April 2017

Marije Louwsma

Developments towards a modern setting

- 1890 – 1924: Start-up
- 1924 – 1945: Initial land consolidation
- 1945 – 1985: Reconstruction period
- 1985 – 2007: Comprehensive approach
- 2007 – 2017: Modern setting
- Future: Trends & developments

1890 – 1924: Start-up

Scientist W.C.H. Staring about land fragmentation:

“A malign phenomenon in agriculture exists that is hardly noticed, because it is so common and widespread, so widely accepted, and apparently so cureless, that eliminating it seems to be hopeless“.

Moving beyond ‘registration mode’

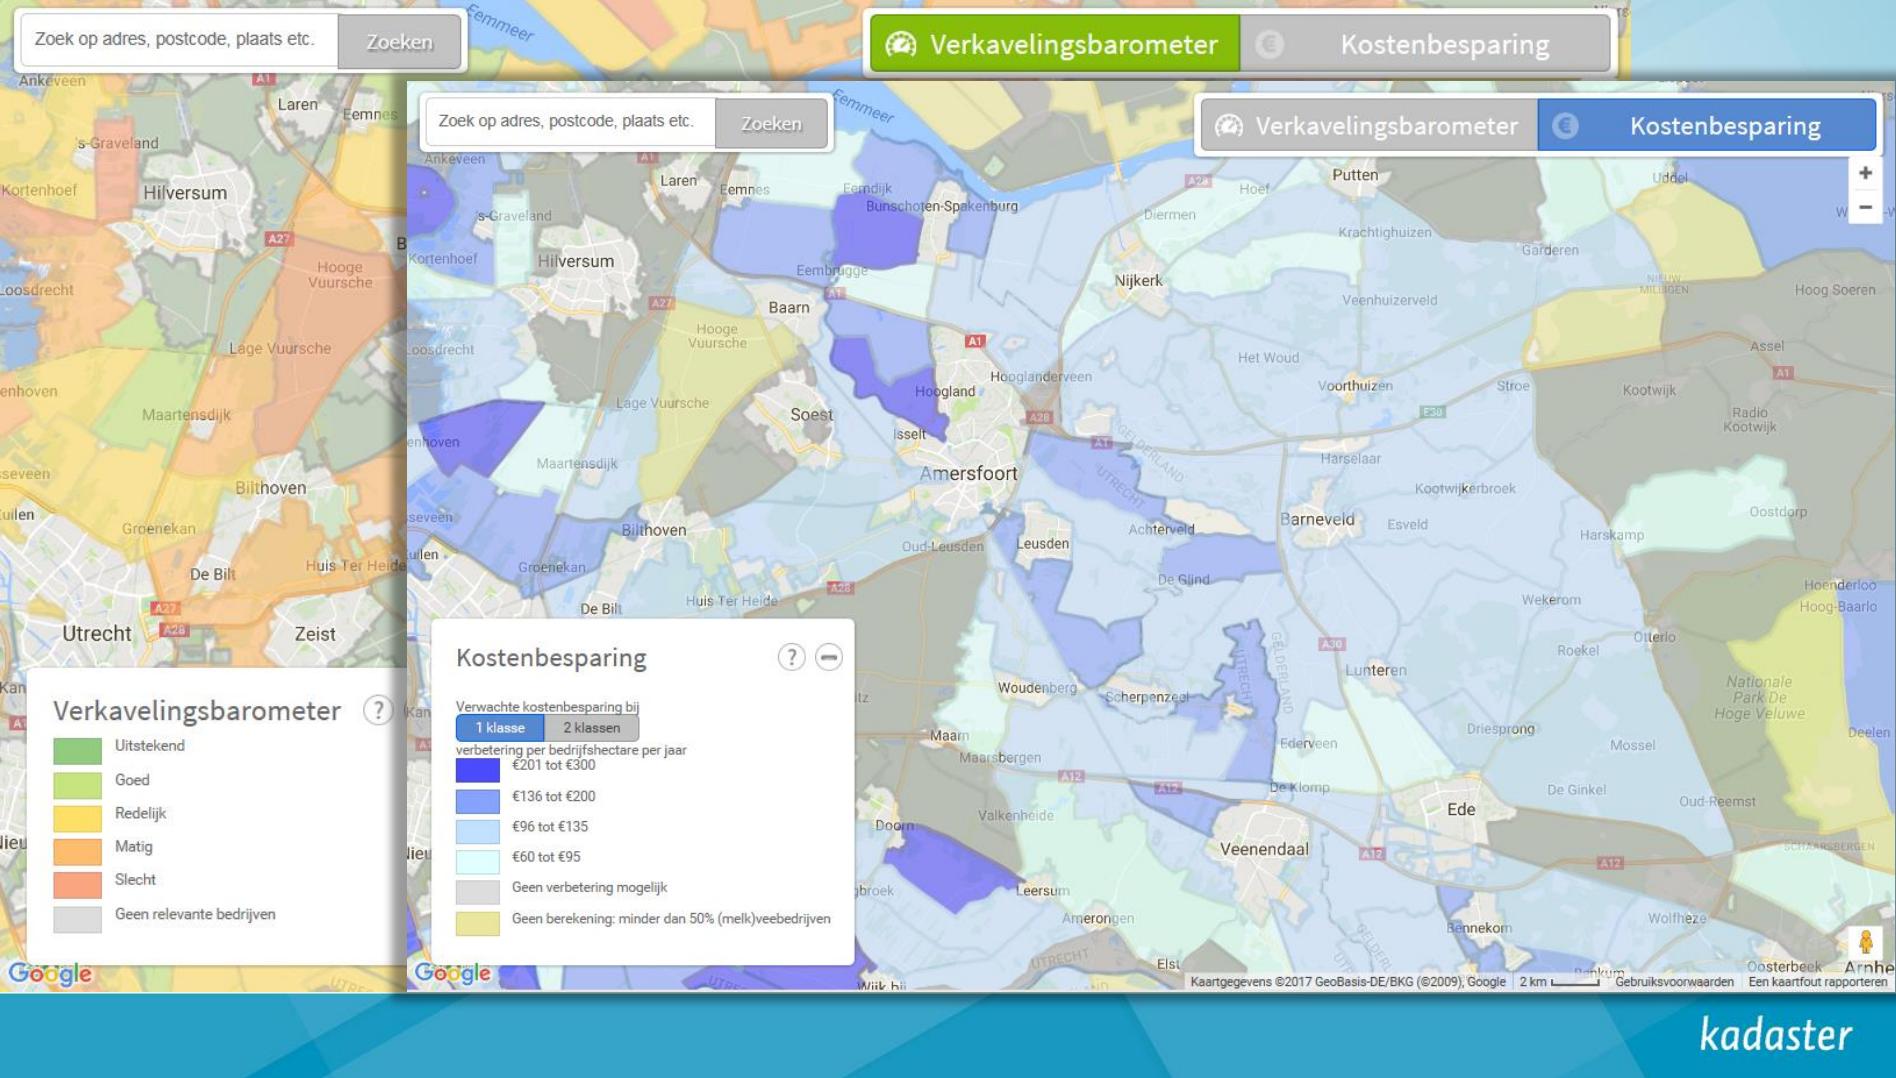

- Land consolidation always used land administration (LA) data
- Digitalisation of LA created new opportunities
- Societal value of LA data for:
 - Spatial planning purposes
 - Analysis and monitoring of land market (e.g. prices)
 - Analysis and monitoring of real estate related developments
 - Land policy / land management
