

BALANCING OPEN DATA , DIGITALIZATION AND SECURITY ISSUES

CONFERENCE AND PLENARY MEETING OF THE PERMANENT COMMITTEE ON
CADASTRE IN THE EUROPEAN UNION (PCC), PARIS, FRANCE, 31 MAY – 1 JUNE 2022,
SESSION 4, WEDNESDAY 1ST JUNE, MAGDALENA ANDERSSON, GUNNAR ERSBO

LANTMÄTERIET

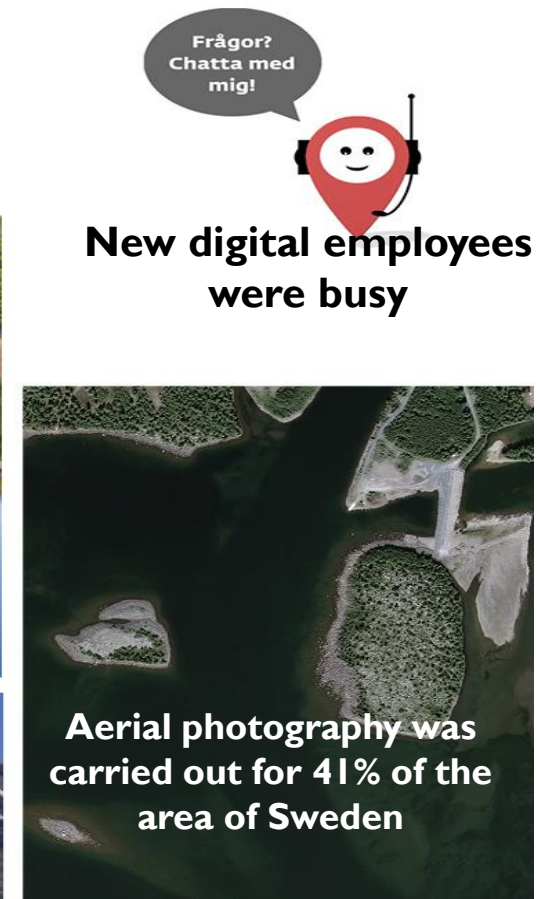

INTRODUCTION

- Mapping Sweden since 1628
- Under Ministry of Finance, Minister Johan Danielsson
- Director General, Susanne Ås Sivborg
- 70 percent of the income is generated from user fees, 30% grants
- 2,200 employees in 40 locations
- Head office located in Gävle

STATISTICS

Some statistics from 2021

MISSION

- Securing ownership of real properties and making geodata available in the society.
- Taking the lead in the digitalization of a smarter planning and building process.

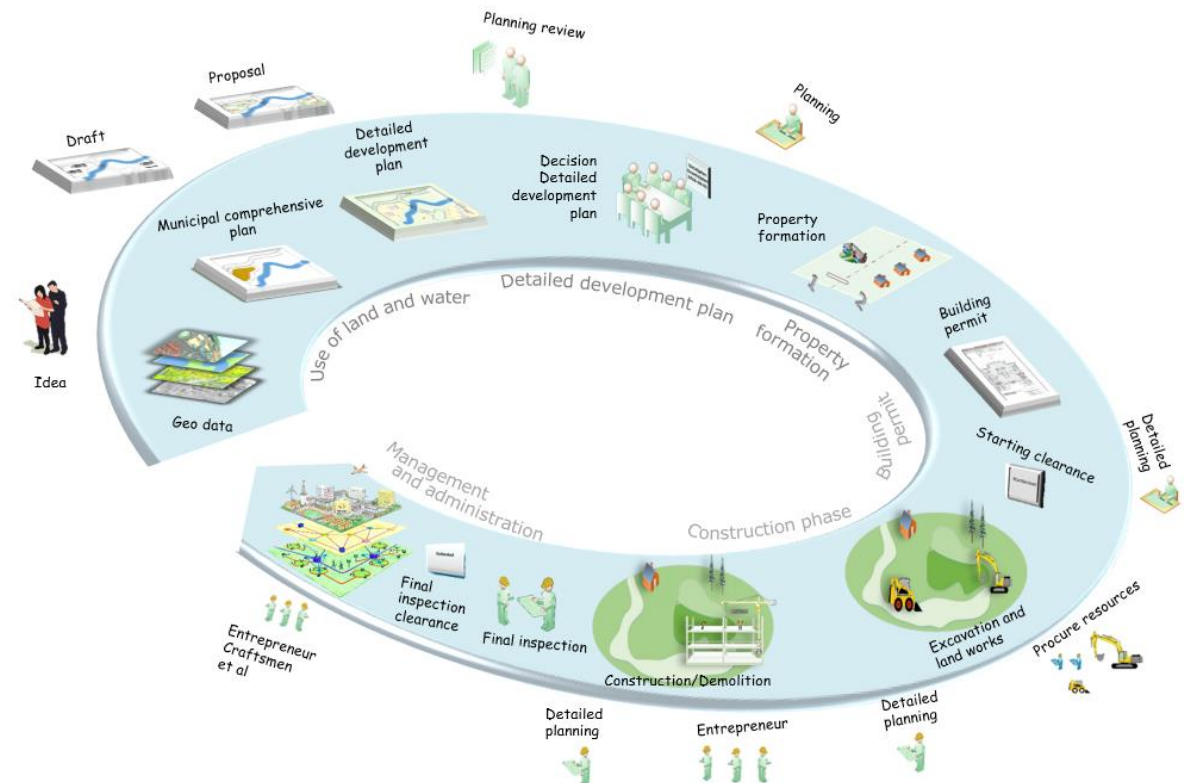

VISION

- Secure, fast and available; location and ownership
- The vision reflects Lantmäteriet's core business; i.e, positioning, geographical- and real property information, property formation, land registration and place names.
- A number of the assignments we have had ever since the authority was established, but the way in which we perform them evolves
- Other assignments have been added more recently.

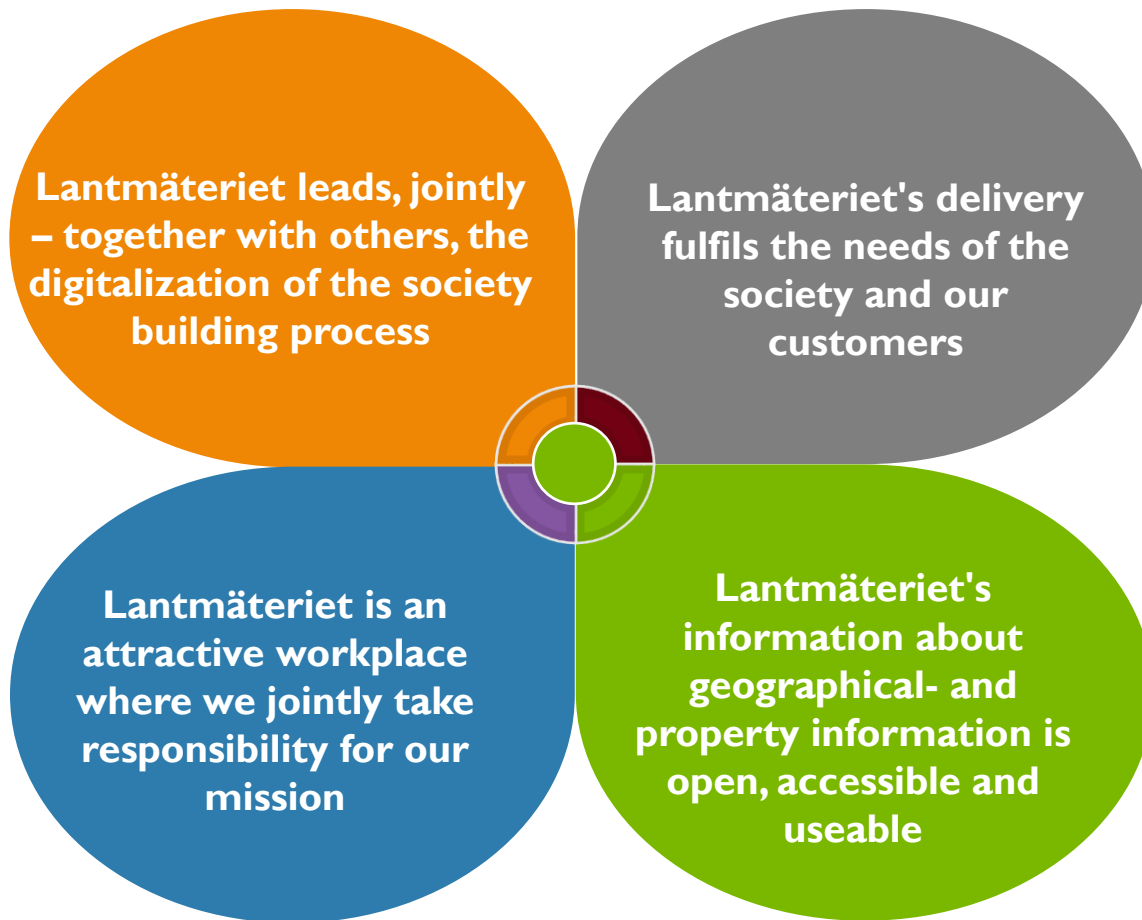

SMARTER PLANNING AND BUILDING PROCESS

- Lantmäteriet leads the development in co-operation with others.
- Aims to create a simpler, more open and more efficient planning and building process for the benefit of citizens, companies and other actors.
- A prerequisite is accessibility to nationally uniform and open information for all actors in the process.

TARGET AREAS

DIGITALIZATION OF THE BUILT ENVIRONMENT PROCESS

- Digitalization of a smarter planning and building process
- Develop our digital services
- Further develop our systems
- Work proactively with questions on legislation

Lantmäteriet leads, jointly
– together with others, the
digitalization of the society
building process

SOCIETY AND CUSTOMER NEEDS

- Implement the new customer strategy
 - Develop a joint customer analysis
 - Strengthen our digital services
 - Develop our communication and accessibility
- Measure our ability to live up to customer needs
 - Confidence, volume and time perspectives

Lantmäteriet's delivery
fulfils the needs of the
society and our
customers

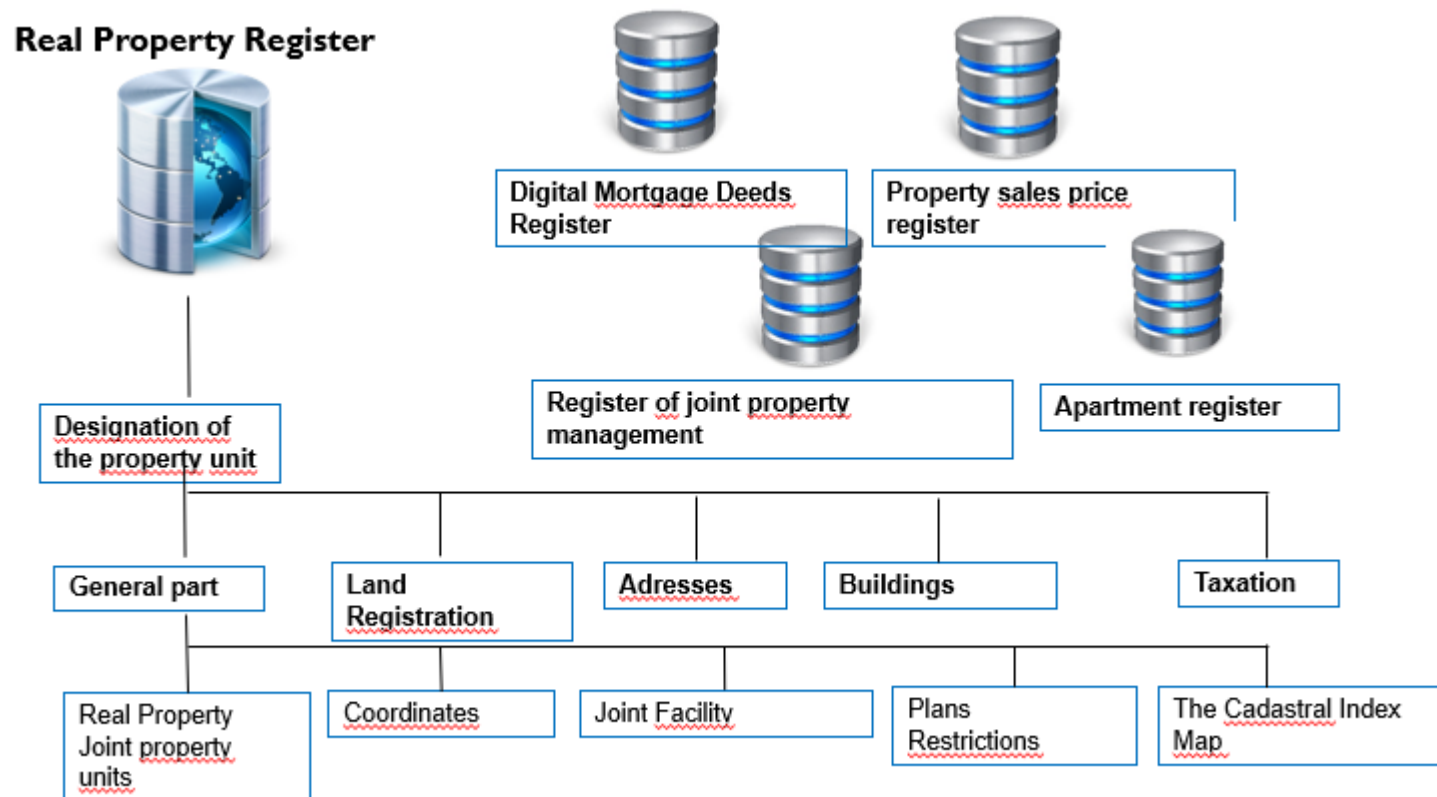

GEOGRAPHICAL AND REAL PROPERTY INFORMATION

- **Improve quality of geodata**
 - Work in accordance with plan on improved positional accuracy on property boundaries in the digital cadastral map
 - Up-dating of geographical information according to schedule
 - Prioritize activities on information security and data protection
- **Improve accessibility of geodata**
 - Project on making information from the Real Property Register more robust
 - Start new development activities on property price information
 - Increase self-services for geodata, digital access – a first option
 - Continued development of digital services for citizens
- **Contribute to an increased use of geodata**
 - Follow the implementation of the open data directive

Lantmäteriet's information about geographical- and property information is open, accessible and useable

SWEDISH REAL PROPERTY REGISTER

REAL PROPERTY REGISTER ACT (SFS 2000:224)

- Section 1, For the purposes specified in section 2, with the help of automated processing, a register called the real property register shall be kept. This shall make public the information included in the register (property-related information).
- Section 5, The governmental authority, Lantmäteriet, is personal data controller for processing of personal data in the real property register.
- Section 6, The governmental authority, Lantmäteriet shall ensure that there is no undue intrusion into the personal integrity of persons in the register or risks from a security point of view. For these purposes, the authority may, in individual cases, decide that additional conditions shall apply in addition to those set out in sections 7-10.

SECURITY – A PRIORITIZED AREA

Activities include e.g.

- Security analysis
- Personnel security
- Physical security
- Information security
