• Post-workshop poll which will open at the end of this workshop until **Friday 15 September 17:00 CEST**
Setting the scene

• Relevant European Commission Policy, Carol Agius
• Previous work on User requirements, Angela Baker
European Commission Priorities

A European Green Deal
Europe aims to be the first climate-neutral continent by becoming a modern, resource-efficient economy.

A stronger Europe in the world
The EU will strengthen its voice in the world by championing multilateralism and a rules-based global order.

A Europe fit for the digital age
The EU’s digital strategy will empower people with a new generation of technologies.

Promoting our European way of life
Europe must protect the rule of law if it is to stand up for justice and the EU’s core values.

An economy that works for people
The EU must create a more attractive investment environment, and growth that creates quality jobs, especially for young people and small businesses.

A new push for European democracy
We need to give Europeans a bigger say and protect our democracy from external interference such as disinformation and online hate messages.
European Legal Framework

Digital strategy

- Digital Markets Act
  - Digital Single Market
  - Gatekeepers
  - Interoperability
  - Service neutrality
- Digital Services Act
  - Intermediary services
  - Level playing field
  - Transparency accountability
  - Civic rights

Setting the scene

- Relevant European Commission Policy, Carol Agius
- Previous work on User requirements, Angela Baker
Conversation with the Users
Conversation with the Users – Facilitated break out session

- **Understanding the users** –
  - What do you do in your day-to-day jobs?
  - What are you using geospatial data for?
  - How does this fit into your job?

- **Understanding the data needs** –
  - What data do you need in an ideal world?
  - What data do you need to support you in your job?
  - How can the data help you achieve your day-to-day actions? (use cases and user requirements)

- **Managing the expectations** –
  - NMCA authoritative data – are they responsible for that data?
  - Within the scope of the OME2 project
