

The background of the slide is a 3D geological map showing various rock formations and faults in shades of brown, tan, and blue. A semi-transparent dark grey box is overlaid on the left side, containing text. A vertical yellow bar is positioned to the left of the text box.

# Setting the scene: Previous work on User requirements

Angela Baker  
Head of Partnerships and Sustainability,  
EuroGeographics

Co-funded by  
the European Union

Digital Europe Programme  
Grant Agreement No 101100625

# User Requirements Activity 2021

**Wrote all DGs and Agencies**

**Ran 3 workshops**

**Polled users**

**Co-funded by  
the European Union**

# What are policy makers using geospatial data for?

## 4 types of use

Creation of policies

Statistical needs

Monitoring

Surveillance

# What are the requirements?

Large scale

Authoritative

Harmonised  
data

Updates

Interoperable

# Summary of requirements

## User requirements

1. Scale
2. Key Themes
3. Change only updates
4. Authoritative & Harmonised
5. Straightforward licensing
6. Geographical Europe coverage
7. Historical data

## EuroGeographics requirements

1. Reduced burden on members
2. Straightforward process
3. Understand what is achievable
4. How much will it cost?
5. How long will it take to develop?
6. How it will be maintained

Co-funded by  
the European Union

# Workshop with Eurogeographics members

- Technical data producer workshop
- Dedicated technical team
