

An aerial photograph of a city street, likely in Madrid, showing a grid of buildings and a road. A semi-transparent dark blue overlay is present on the left side of the image, containing white text. The text is arranged in two main sections: the top section contains the year and speaker's name, and the bottom section contains the conference details. The background image shows a street with buildings, cars, and a green area in the center.

**2023 – year of changes**  
**Patricia Sokacova**

**Joint PCC-EuroGeographics  
Conference 25-27 October 2023 Madrid**
