

An aerial photograph of a city roundabout with a central green space. The image is split vertically. The right half features a white wireframe overlay that connects various points across the city, symbolizing a network or data exchange. The text "Keeping you connected through knowledge exchange" is overlaid on the left side of the image.

Keeping you
connected through
knowledge exchange

Agenda

- Webinar series
- Collaboration with EuroSDR
- Continuous professional development
- Questions and answers

#SeriesIntro

Enhancing Knowledge Exchange

We are broadening the concept of knowledge exchange, to offer more opportunities and deliver enhanced benefits to more of our members.

Key Points:

Our KENs provide valuable membership benefits. Some steps to enhance our approach to knowledge exchange:

- Additional knowledge exchange tools and methods will be introduced
- Knowledge exchange will broaden to encompass capacity building
- We will seek external funding to enhance our knowledge exchange further

We aim to:

- Sustain our knowledge exchange activity within current resources, ensuring that a consistent approach to support for knowledge exchange
- Develop an extended programme of knowledge exchange and capacity building activity aligned with the representation activity and event strategy
- Identify external funding programmes that support our capability and role in knowledge exchange for our members

Refocus knowledge exchange

Members provided a mandate to engage with a more directed form of knowledge exchange and capacity building through the refocused strategy:

- aimed at addressing specific needs in particular regions,
- expand the concept to a broader, holistic and coordinated knowledge exchange approach, which delivers richer benefits to our members.
- KENs will be retained as one important facet of knowledge exchange, supplemented by other knowledge exchange tools and methods

Enhancing Knowledge Exchange

What do we want to achieve with knowledge exchange?

- Sharing knowledge and experience
- Learning from each other
- Networking with our peers

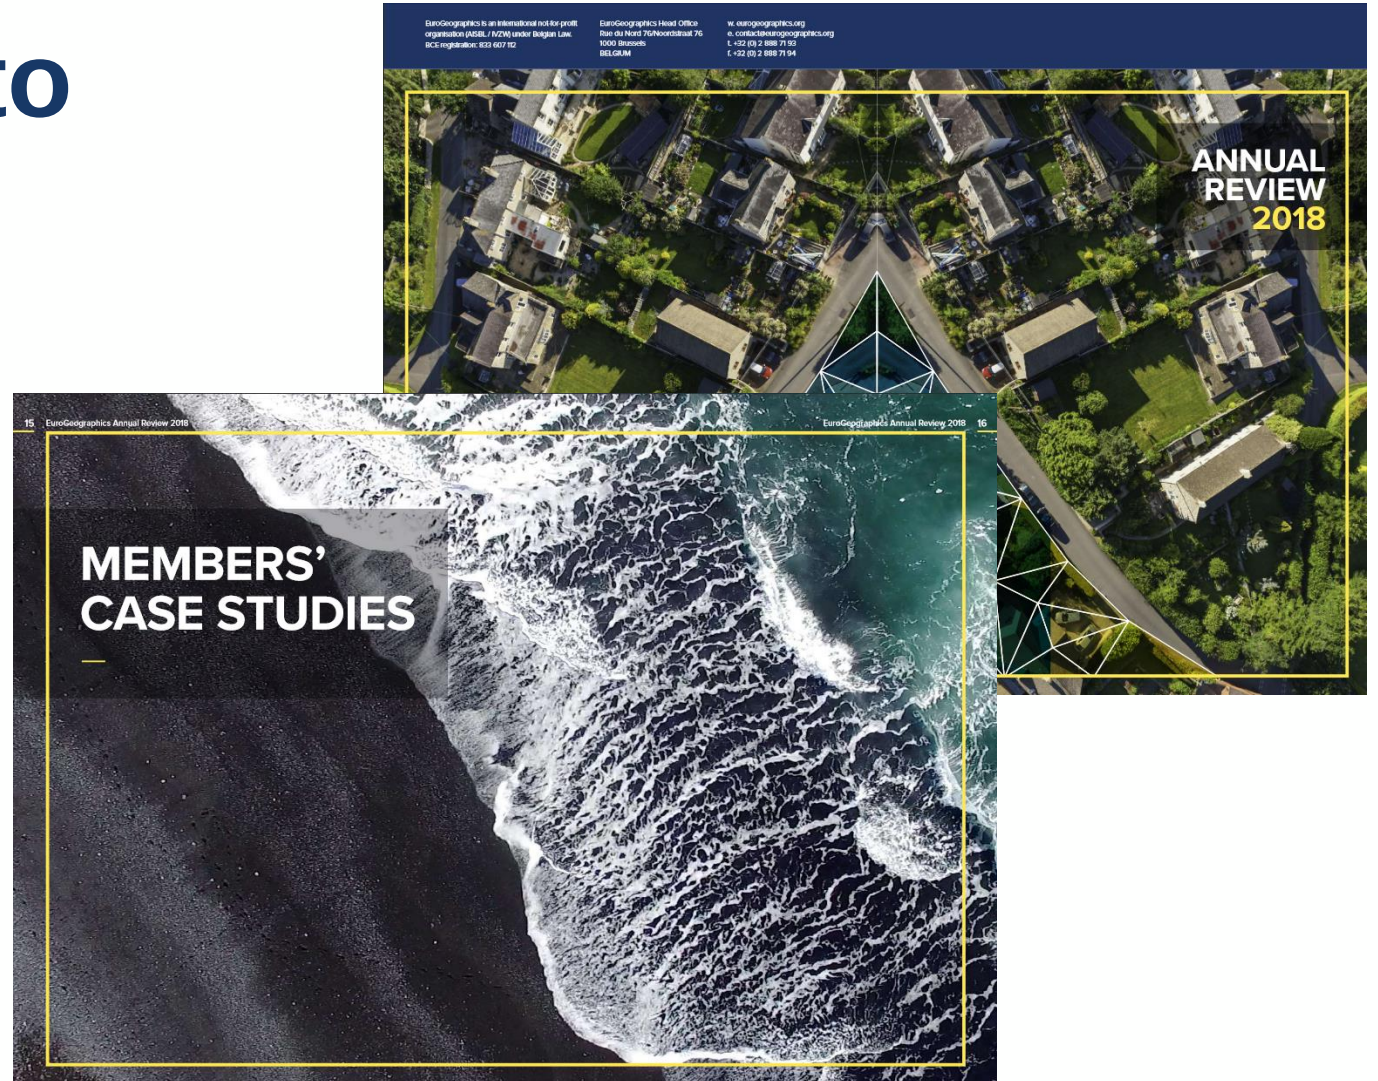

Webinars:

- Share knowledge and experience
- Learning from each other's success
- Keep in contact with our peers
- Keeping you connected through knowledge exchange

From case studies to knowledge sharing

- The webinar series will be based on members' case studies for 2019 annual review
- Two case studies per webinar
- One hour webinar, every Thursday at 10:30 (CEST)
- Planning webinars into June/July

Webinar Topics

Members Case studies have been categorised onto topics:

- Business transformation in Cadastre and Land Reg
- Digital transformation - workflow improvement
- Digital transformation in Cadastre
- Geoportal
- Interoperability and use of authoritative data
- NSDI
- Open data
- Positioning/GNSS
- Quality

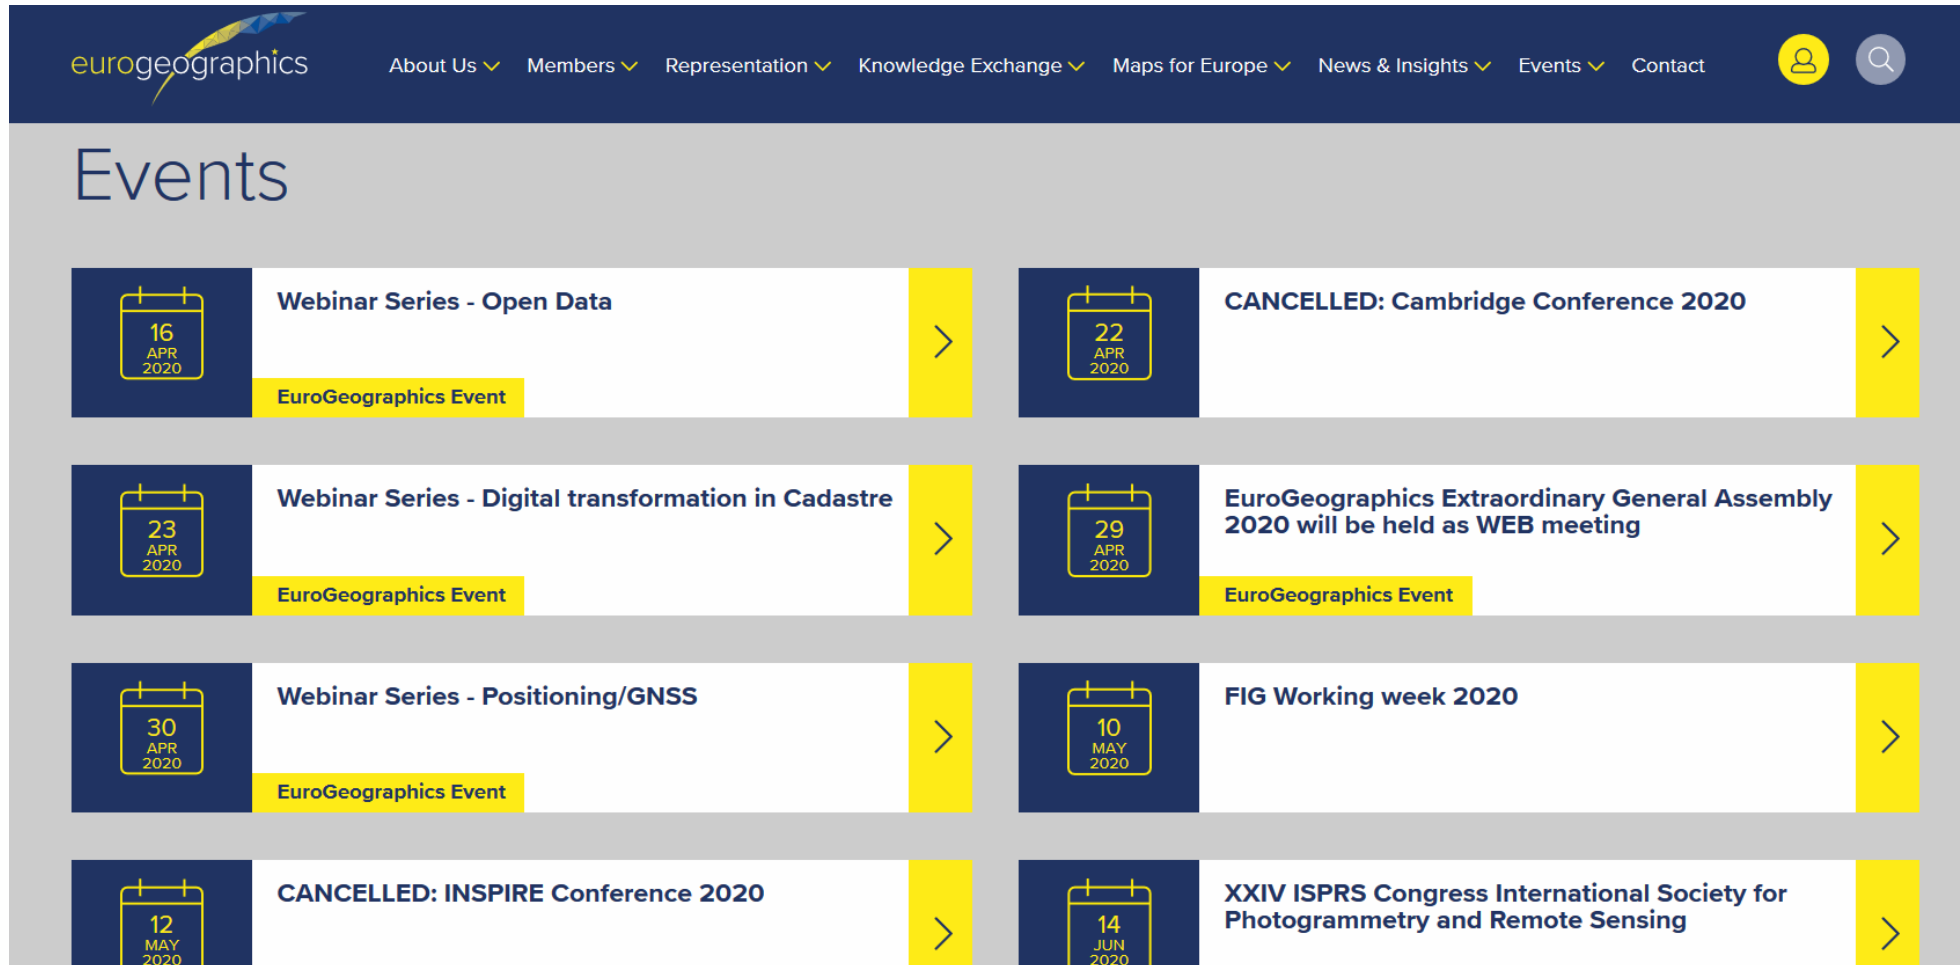

The first two webinars

Open Data, April 16 @ 10:30 am - 11:30 am CEST

- *Delivering data to fight wildfires and protect forests in Sweden*, Peter Adler, Lantmäteriet Sweden
- *New National Data Distributor in service*, Leif Hernø Agency for Data Supply and Efficiency, Denmark

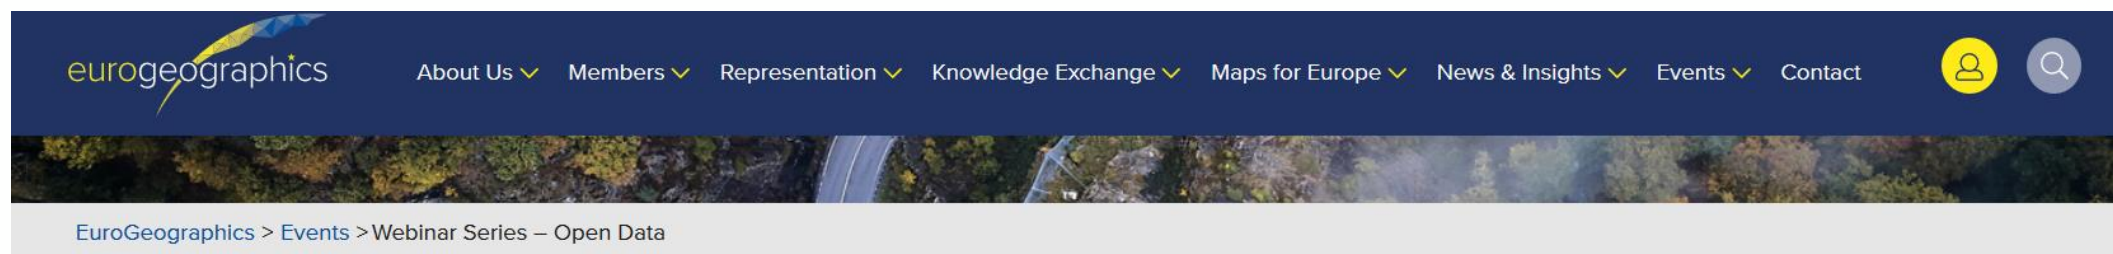

Digital transformation in Cadastre, April 23 @ 10:30 am - 11:30 am CEST

- *Increasing transparency and availability of data with Cadastre 2.0 in Ukraine*, Dmytro Makarenko StateGeoCadastre, Ukraine
