Below the header is a blue navigation bar with icons for MAP VIEWERS, Table of Contents, Search, Basemaps, Identify, Clear Selection, Zoom In, Zoom Out, Zoom Back, Zoom Home, Print, Measure, Add Data, Max Map, and a help icon. The main content area features a topographic map of the Lefkosia and Lemesos regions. A left-hand sidebar contains a 'Table of Contents' and a list of map layers, many of which are checked. The map itself shows various geographical features, including boundaries, area names, spot heights, mines/quarries, hospitals/schools, religious sites, power stations, EAC pylons, and a high-tension network system. The map is overlaid with a grid and includes a scale of 1:72224 and coordinates (Long: 32.82169073, Lat: 34.97353088). The bottom right corner of the map area features the 'Earthstar Geographics' and 'esri' logos.

VERTICAL DIVISION SCENARIO

Step Survey Planning - Preparation

The screenshot displays the ArcGIS Pro interface for a project named 'MyTestProject - JOB_3/AX/40/2022'. The main window shows a workflow diagram with several steps. A red box highlights the 'Survey Planning' step, which is the current step in the workflow. A red arrow points from a text box to this step. The workflow steps include: 'Survey Planning', 'Is Field Book or Georeferencing Work Needed?', 'Draft Survey Edits', 'Prepare Data for Field', and 'Create Map for Field and Export ASCII and DXF'. The 'Job Status' is 'In Progress, 2% Complete' and the 'Current Step(s)' is 'Survey Planning'. The 'Catalog' pane on the right shows a tree view of project folders, with '3-AX-40-2022' selected. The 'Contents' pane on the left shows a map view with various layers.

Steps GIS Editing

The screenshot displays the ArcGIS Pro interface for a project named 'MyTestProject - DLO_3/AX/40/2022'. The main map area shows a parcel map with several parcels outlined in different colors (cyan, orange, green). Parcel 970 is highlighted with a red hatched pattern. The 'GIS Editing' tool is active, and the 'Tasks' pane on the left shows a list of editing tasks, with 'GIS Editing' selected. The 'Geoprocessing' pane on the right shows the 'Update Project Properties' tool running, with parameters for 'Job Workspace' and 'DLO File Name'. A red arrow points from a text box to the 'GIS Editing' task in the Tasks pane.

4. Get New Parcel Sub Property ID

This tool will update the **Sub Property ID** of the selected features. It is necessary to update this attribute on any **new provisional** parcel.

- 1: Create the appropriate selection of parcels
- 2: Choose **Parcel/Parcel** for the Parcel Layer
- 3: Choose **Parcel\Historic\Historic Parcel** for the Historic Parcel Layer
- 4: Click **Run**

No pending edits.

Parameters Environments

Parcel Layer: Parcel
Historic Parcel Layer: Historic Parcel

If there are no features that need this attribute updated, **Skip**. Otherwise, once the tool runs successfully, proceed to the **Next Step**.
