

The Not-for-Profit Membership Association for Europe's National Mapping, Cadastral and Land Registration Authorities

Established in 2000 and based in Brussels.

Represents the collective interests of around 90% of the official bodies responsible for geodetic surveying, topographic mapping, cadastral surveys and land registration in geographical Europe.

More than 55 Full Members comprised of National Mapping, Cadastral and Land Registration Authorities.

Governed by Full Members through the General Assembly and Management Board.

Has a worldwide presence through its participation in global partnerships and networks.

Enables closer collaboration with the wider geospatial ecosystem via network of Observer Members.

A STRONG, INDEPENDENT VOICE FOR OFFICIAL PAN-EUROPEAN DATA AND EXPERTISE

EuroGeographics is the not-for-profit association representing Europe's National Mapping, Cadastral and Land Registry Authorities.

We are recognised as the point of contact for advice, expert comment, and the provision of pan-European geospatial and land information from official national sources, both in Europe and through our partnership with the United Nations Statistical Division and UN-GGIM.

Our primary strength lies in bringing together authoritative data and collective expertise across national boundaries. As a member, you join a trusted pan-European network that connects you to international initiatives, delivering significant value for your organisation.

DELIVERING VALUE TO MEMBERS

Enabling access to members' geospatial data to promote its integration into European and global infrastructures.

Representing members' collective interests to champion official geospatial data as a sovereign asset for Europe.

Supporting members ambitions by solving common challenges through knowledge exchange and partnerships.

ASSOCIATE MEMBERSHIP

Associate membership is open to national bodies across geographic Europe that are responsible for geodetic surveying, topographic mapping, cadastral surveys or land registration. It provides a route to full membership while enabling organisations to engage with the EuroGeographics network and participate in selected activities.

Applications are subject to approval by EuroGeographics General Assembly.

Associate Membership is €10,000 per annum.

Patricia Sokacova, Membership & Communications Manager

ASSOCIATE MEMBERSHIP BENEFITS

Associate Members benefit from activities that help them build relationships and strengthen collaboration across Europe's geospatial sector, creating a strong foundation for future full membership.

Capacity Building and Peer-To-Peer Networking

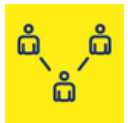

Opportunities to **share best practice and common solutions** by participating in EuroGeographics **extensive knowledge exchange programme** of webinars, in person events, technical workshops and conferences.

Access to the Associate Member pages of EuroGeographics website.

By-invitation-only **high-level networking opportunities**, including the EuroGeographics General Assembly, **for leaders of member organisations** to discuss mutual matters of interest and engage with European and global policymakers and industry experts.

Participation in **events for Permanent Correspondents** and, when convened, any Extraordinary General Assembly.

Regular updates on Association activities, European and Global Policy

Direct support from EuroGeographics Head Office via your nominated **Permanent Correspondent** - your main point of contact with the Association.

Regular communications from EuroGeographics Head Office, including **members newsletter** with **bi-monthly summaries of EU and non-EU policies**, PLUS **discounts** negotiated on behalf of members.

Opportunities to **showcase your capabilities and the value of your data** in the Annual Review.

A **global perspective on** geospatial, National Spatial Data Infrastructure, land registry and cadastral **policy issues** via access to UN-GGIM papers, information, events, working groups, in particular through EuroGeographics provision of the UN-GGIM: Europe secretariat.
