

The Not-for-Profit Membership Association for Europe's National Mapping, Cadastral and Land Registration Authorities

- Established in 2000 and based in Brussels.
- Represents the collective interests of around 90% of the official bodies responsible for geodetic surveying, topographic mapping, cadastral surveys and land registration in geographical Europe.
- More than 55 Full Members comprised of National Mapping, Cadastral and Land Registration Authorities.
- Governed by Full Members through the General Assembly and Management Board.
- Has a worldwide presence through its participation in global partnerships and networks.
- Enables closer collaboration with the wider geospatial ecosystem via network of Observer Members.

A STRONG, INDEPENDENT VOICE FOR OFFICIAL PAN-EUROPEAN DATA AND EXPERTISE

EuroGeographics is the not-for-profit association representing Europe's National Mapping, Cadastral and Land Registry Authorities.

We are recognised as the point of contact for advice, expert comment, and the provision of pan-European geospatial and land information from official national sources, both in Europe and through our partnership with the United Nations Statistical Division and UN-GGIM.

Our primary strength lies in bringing together authoritative data and collective expertise across national boundaries. As a member, you join a trusted pan-European network that connects you to international initiatives, delivering significant value for your organisation.

DELIVERING VALUE TO MEMBERS

Enabling access to members' geospatial data to promote its integration into European and global infrastructures.

Representing members' collective interests to champion official geospatial data as a sovereign asset for Europe.

Supporting members ambitions by solving common challenges through knowledge exchange and partnerships.

FULL MEMBERSHIP

Full Membership of EuroGeographics is open to national bodies within geographic Europe responsible for geodetic surveying, topographic mapping, cadastral surveys, and land registration.

Annual subscription fees for Full Members are set within clearly defined bands based on national gross domestic product (GDP).

Applications are subject to approval by EuroGeographics General Assembly.
