CLGE: a definition

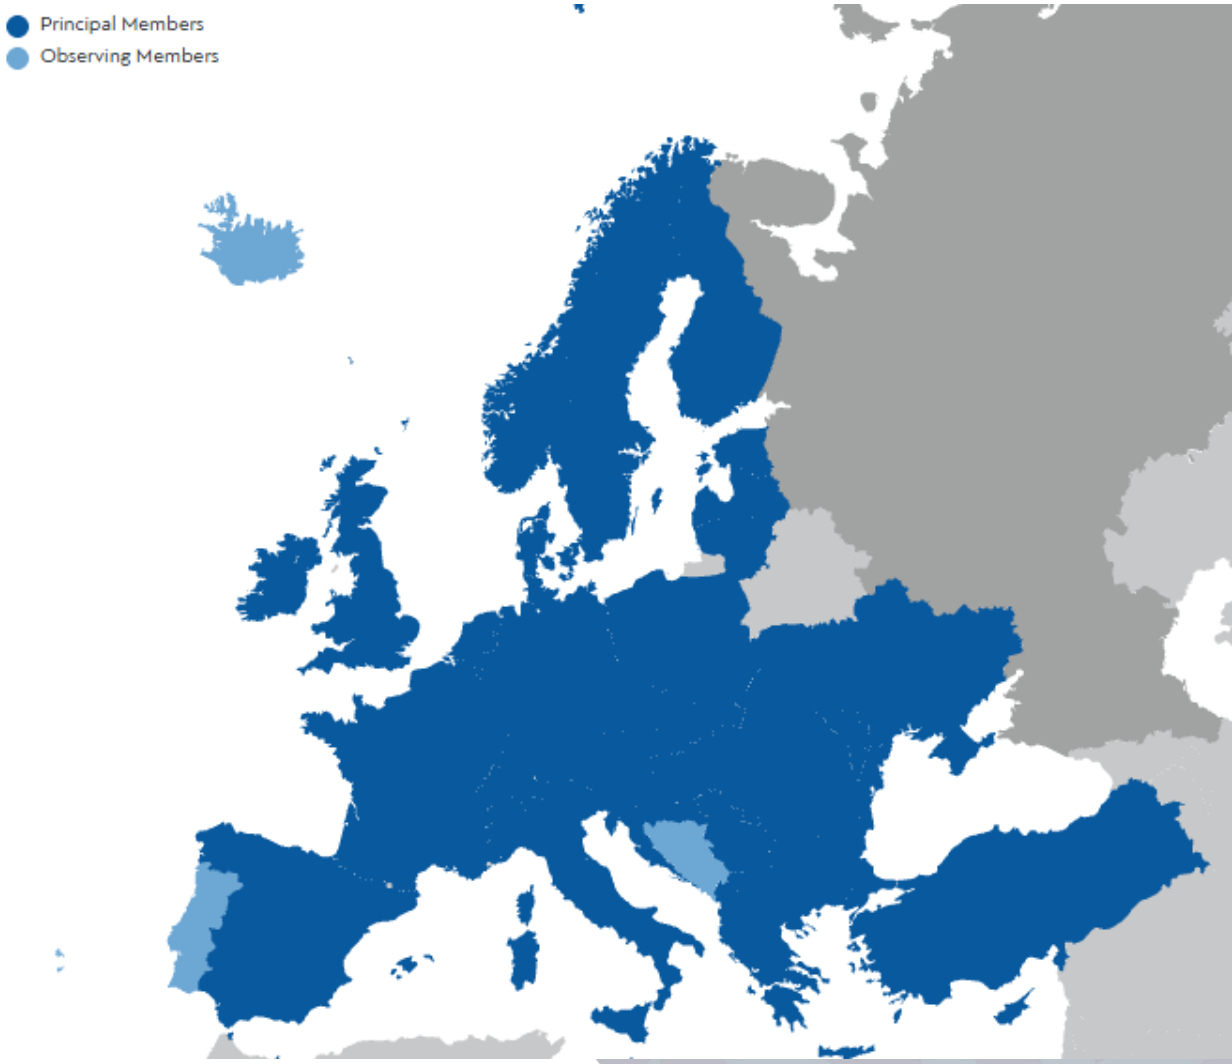

> **Our Mission is** to represent and promote the interests of the geodetic surveying profession in the private and public sector in Europe.

- CLGE is the leading representative body for the surveying profession in Europe.
  It promotes and strengthens the profession within the European Union and supports its development within the Council of Europe.
- Surveying also includes cadastral surveying, which ensures legal certainty regarding land ownership and property rights, forming an essential foundation of our economic system.
- In today's world, geospatial information is everywhere, and surveyors play a key role in collecting, managing, and safeguarding this information.
