19.0	KM	3 th June 2026	Change of terminology responsible

Content

1. Purpose of this document	2
2. General information	3
3. Planned activities.....	3

1. Purpose of this document

- The long-term plan will
 - be an input to the yearly work plan
 - clarify the objective for each action
 - clarify responsibility for each action
 - give a simple overview of all activities within the Quality KEN
 - make it easier to change the plan when there is conflict in time etc.

The long-term plan will be updated each year by the Co-ordinating committee (CC)

2. General information

The long-term plan supports the strategic objectives of EuroGeographics namely

- 2. Develop the network of members
- and
- 6. Grow our network of members

Topical issues are discussed and selected at the CC meetings for active discussion and breakout sessions at the next plenary meeting.

3. Planned activities

Objective (members)	Action (group)	Responsibility	Deadline	Comments
Support communication and the exchange of experience among the members and wider GI community	Update the Terminology glossary	Fergus	Continuously	Once a year before spring plenary send a reminder to members
	Maintain Q-KEN website	Chair / EGHO rep	Continuously	
	Maintain Q-KEN forum via Basecamp for member discussion and inform of latest news and technical developments	All	Continuously	
	Run Webinars on topics of interest to the Q-KEN.	CC	On demand	
	Run a feedback questionnaire every 18 months to ensure that the activities of the Q-KEN are meeting the needs of the members	Oliwia/ EGHO rep	Every 18 months Next Autumn 2026	
	Grow our network of members to enable greater sharing and understanding of information	CC	Continuously	All to seek opportunities to do this
	Support EuroGeographics in the delivery of its Data Strategy	CC	Continuously	
Take part in research activities to help the work in Q-KEN to go forward	Encourage academia and other organisations involved in quality to participate in the activities of the Q-KEN	CC	Continuously	Encourage and engage with groups like EuroSDR.

	Participate in practical implementation of research.	CC	Continuously	Encourage and engage with groups like EuroSDR.
