SDGS TO WHICH THE NLS CAN CONTRIBUTE THE MOST

INDUSTRY, INNOVATION AND INFRASTRUCTURE

- Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation
- Reliable base registers
- Open data
- Innovation through research

PEACE, JUSTICE AND STRONG INSTITUTIONS

- Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels
- NLS good example of accountability
- Legal protection
- Reliable registers

SUSTAINABLE CITIES AND COMMUNITIES

- Make cities and human settlements inclusive, safe, resilient and sustainable
- NLS data and registers
- Register on limited liability housing companies

DECENT WORK AND ECONOMIC GROWTH

- Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
- Our activities, research results, open data etc. enable growth
- NLS significant employer in the sector
- We have an impact on local economies

LIFE ON LAND

- Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss
- Formation, delimitation and registration of nature protection areas etc, common forests and forest reallocation
- Open topographic data

IN DEVELOPED COUNTRIES NOT SO OBVIOUS

- Of many of the goals (No poverty, No hunger, Quality education...) difficult to see the connection
- In other fields (nature conservation, disaster management, flood hazard mapping, monitoring of different phenomena) it is easier

NOT VERY VISIBLE IN STRATEGY

- The goals did not end up in the strategy as such
- Strategy communicates our will to act in the spirit of the SDGs
- A true statement and an important sign of responsibility and proof of our values

TAKING THE JOURNEY MAKES YOU WISER

- We started with little knowledge about SDGs and finished with understanding that we have a meaningful role to play
- We keep maintaining our registers, collecting data and providing it for the benefit of the society and the Earth.

ADVANCING TOGETHER
